## EXPERIENCE

### GenAI Automation Intern

Merck & Co., Inc.

Jun 2026 – Aug 2026

Rahway, NJ

- Partnered with Merck's Enterprise IT (EIT) team to research, validate, and refine technical documentation for Harvey AI and DocuSign CLM platforms, standardizing materials for stakeholder and leadership presentations
- Researched and developed a RAG agent proof-of-concept (POC) on Merck's AgentGPTeal platform to automate lease document ingestion, improve information accessibility, and reduce manual lookup time for the real estate team
- Collaborated with cross-departmental engineering and business teams to track project milestones, surface risks, and resolve blockers, keeping delivery aligned with EIT timelines

### ML Engineering Intern

Merck & Co., Inc.

Jun 2025 – Aug 2025

Rahway, NJ

- Engineered Python ETL pipelines in Databricks to ingest, process, and visualize large-scale telemetry data, powering digital twin simulations and predictive analytics models for Merck Animal Health IT (AHIT) manufacturing operations
- Designed KPI dashboards and analytics layers internally within Databricks using SQL to transform raw machine data into real-time decision-ready metrics
- Acted as a primary project manager for a technical team of 12, leading sprint sessions and coordinating debugging and prioritization workflows for global team members via ServiceNow
- Further strengthened enterprise leadership skills and cross-departmental communication by presenting project findings to managers, stakeholders, and other Merck professionals

### Business Operations Analyst

PMac's Hospitality Group

Jun 2024 – Jun 2025

Manhattan, NY

- Engineered a Python ETL automation workflow (OpenPyXL) that ingested and standardized payroll inputs, reducing manual processing effort by 33% and improving consistency across large financial datasets
- Consolidated and validated data from 150+ vendors to support quarterly financial reviews and P&L reporting, strengthening experience applying analytics to business decisions with QuickBooks Online and other software

### Web Scraping Specialist Intern

Innovatix Technology Partners (f.k.a. Macrosoft Inc)

Jul 2020 – Sep 2020

Parsippany, NJ

- Aided in the testing/validation of an automated web scraping tool designed for global public research and patent databases
- Prepared comparison matrices to benchmark 25 key functionalities of the company tool against 14 competitors
- Conducted use-case analyses against the top 3 market leaders, and provided actionable insights for product improvement
